- a. If support, what are the three most important areas that need improvement?

*Succession Planning

Campaign Financing to limit the influence of special interest*

- b. Do you believe that greater home rule should be granted to the City of New York? If so, in what areas should further sovereignty be given?

Yes, in control of utilities, transportation and taxation of its residents

- 20. Taking into consideration the lessons learned from the debates surrounding congestion pricing and the Ravitch Commission's recommendations to provide the MTA with long-term funding, what would you propose to address the MTA's fiscal solvency issues and ensure that the burden for funding the MTA is equitably distributed among all stakeholders?

I favor a commuter tax for non-city residents and putting incentives in place for management and employees to lower costs

21. What would you propose in terms of creating a greater role for the city council in determining and deciding the city budget?

Open to ideas

22. What is your position regarding the City's past practice of using surplus tax revenues to pay down future health cost and pension obligations, and the decision not to do so this year?

In favor of using surplus tax revenues to pay down future health + pension costs and to pay down government debt. Was in favor of doing this, this year.

23. What is your view of how the taxes paid by New Yorkers compare to the value that is received in City services? Do you believe that taxes should be raised or lowered? To the extent you believe taxes should be changed, please provide specific proposals about what taxes you would raise and what services you would cut, if you didn't raise taxes, listed in order of greatest magnitude.

We should be continually striving to bring down taxes. We need to do this by increasing government efficiency, enlarging our tax base, helping our residents earn more and creating revenue streams with our assets.

24. Many policy advocates champion the creation of a more diversified economy, and one that is less reliant on Wall Street. What is your position on such a plan? If you support it, what would you do to diversify the city's economy? How would you adjust spending in New York City to accommodate the anticipated reduction in tax revenue as the tax base shifts to lower paying jobs?

I support a more diversified economy. We should be working with business to find what skills are most in demand and making training centers to train our work force. I would focus on green and high tech jobs.

25. What would you propose the Department of Education do to increase the ability for parents and teachers to become more meaningfully involved in the education system? What other positives changes can be made to the New York City public school system?

The Pta's should be empowered to make decisions on curriculum, expenditures and teachers. We need to work to shift to more critical thinking and for smaller classrooms.

26. What would you propose to increase the transparency of the Board of Elections in the City of New York's operations and accountability to the city and its voters?

I am in favor of an independent Board of Elections with a yearly report of all operations, expenditures and other important matters released publicly.

27. What would you propose to further enhance transparency regarding the relationships between council members, their families, and nonprofits that receive funding from New York City?

I favor all dealings between any entity receiving funds from the government and a council member or their family being made public.

Additional Comments:

I am a progressive and my campaign is based around making government transparent, responsive and accountable. The other main focus of my campaign is to make government deliver our services in the most efficient way to bring down utility, transportation and other costs along with taxes.
