

## 2012 QUESTIONNAIRE FOR CANDIDATES FOR NEW YORK STATE LEGISLATURE

Citizens Union would appreciate your response to the following questionnaire related to policy issues facing New York State and our interest in reforming state government. Responses to these questions will be one of several factors Citizens Union will use to evaluate candidates who are running for office in order to determine our "Preferred Candidates" for the September 13<sup>th</sup> Primary Election, and our "Endorsed Candidates" for the November 6<sup>th</sup> General Election.

If you seek our support, we would also need to schedule an interview with you as part of the evaluation process. We will not automatically schedule an interview with you if you return this questionnaire, as we prioritize competitive races and resources constrain us from evaluating all races. Please contact us if you wish to be interviewed.

Please use the space provided or a separate sheet of paper to elaborate on your positions on the issues contained in the previous pages. You may also provide additional information on any actions that you have taken or plan to take to advance your positions on these issues.

\_8- My position on instituting early voting in New York State to allow voters to cast their votes at more convenient times: In theory, I support providing voters with a longer voting period in order to make the exercise of this civic responsibility more convenient, however, given the current state of election management in NY and the difficult financial situation of municipalities administering elections, I would hesitate to support early voting without accompanying legislation to provide regulations to ensure voter rights are strongly protected and a dedicated revenue to stream to provide for election period administration.

---

\_13- My position on lowering campaign contribution limits for legislative and statewide candidates for public office: As a new entrant into the political arena trying to fundraise, I am concerned about the extreme role funding plays in gaining institutional support. Based on my current experience, I believe strongly that NYS legislative and statewide campaigns would benefit greatly from a public matching funds program in order to help candidates maximize contributions. Without a matching funds program and disincentives for transferring funds from amassed war chests or other political committees, lowering campaign contribution limits would neither improve public campaigns nor be especially helpful to making the political election cycle more accessible to new leaders, entrants into the political process.

---

\_\_\_29- My position on the use of Generally Accepted Accounting Principles (GAAP) rather than cash accounting for the state budget: I support the effort to mitigate structural budget deficiencies and use of budget gimmicks (straddling fiscal year and calendar year to capture revenue or delay payment of program funds) to "balance the budget" thereby pushing the can of fiscal reckoning down the road for future administrations. I hesitate to fully support use of GAAP without an accompanying proposal to deal with accounting for general fund revenue items and the 20 yrs+ practice of supplanting of supplemental dedicated revenue stream initiatives.
