What is your position on the adoption of stricter redistricting rules that would ensure that every district is: more equal in population (within 1% deviation from the mean), contiguous and compact, formed without regard for protecting an incumbent or political party, mindful of the need to keep neighborhoods intact, and not drawn to undermine racial, linguistic, and ethnic representation? No.4. Currently my assembly district has all kind of corners in such way that sometimes is very difficult to identify who the representatives are, and therefore very difficult to run for office. It diminishes people interest to participate.

CAMPAIGN PROMISES MADE TO VOTERS

As a candidate who presently does not hold elected office, CU is interested in knowing your top five campaign promises or goals you are making to the voters during this campaign for this position.

If elected, Citizens Union will use these promises or goals to evaluate your performance while in office, as well as, to evaluate your candidacy in the future.

We thank you very much for your response. Please feel free to use additional paper if the space provided is not sufficient.

TOP FIVE 2010 CAMPAIGN PROMISES OR GOALS

1. In order to preserve manufacturing and other jobs, I propose a moratorium restriction down zoning of properties zoned for manufacturing and commercial use. The owners of the properties know the existing restrictions when they knew them and if they have not allowed downzoning, some entrepreneurs will find a way to use them as zoned and there by provide needed jobs.
2. I also propose to fund programs to provide information and assistance to small businesses to encourage job growth and prosperity in the community.
3. I also propose an amendment to the New York State Banking Law to authorize the Department of Banking to require banks licensed and regulated by it, to make business loans to small businesses in the community in which they operate.
4. My district has a shamefully high school dropout rate. Many of the dropouts came to this country illegally with their families as small children and still do not have status. I propose an amendment to the New York State Education Law to make the High School Equivalence Examination and General Education degree available to all regardless of immigration status. This will not just benefit the individuals affected, but will benefit the whole community and State as they are brought into the mainstream of society.
5. Finally, I propose amending the New York State Civil Rights Law to prohibit discrimination based on immigration status in all matters other than employment. I made this one exception because Federal Law currently prohibits employment to undocumented aliens and we cannot place employers in the untenable position of deciding whether to violate Federal or State Law. However the provisions I propose would do much to bring the undocumented persons who are already among us , into the main stream of society both socially and economically, and that will benefit all of us.
