Citizens Union is a nonpartisan good government group dedicated to making democracy work for all New Yorkers.

Citizens Union, a civic watchdog that combats corruption and fights for political reform, works to ensure fair and open elections, honest and efficient government, and a civically-engaged public. We are New Yorkers from diverse backgrounds and political beliefs, connected to our communities and united in our commitment to put the city's long-term interest ahead of all special interests. Principled and pragmatic, Citizens Union is an independent force for constructive reform, driving policy and educating the public to achieve accountable government in the City and State of New York.

Established in 1897, **Citizens Union of the City of New York** has spearheaded voting procedure reform, government accountability and transparency, ethics initiatives, city campaign finance, state redistricting reform, and key changes to city government through legislation and charter revision. **Citizens Union Foundation**, the nonprofit research and education organization affiliated with Citizens Union founded in 1948, monitors government, conducts research, and analyzes the impact of proposed public policy and legislation on the city and state. It also educates the public through forums and the independently published Gotham Gazette, a news website that reports on the effects of politics and policy on New Yorkers' lives, livelihoods and communities.
