Additional Responses:

14. I strongly oppose the recent extension of term limits to three consecutive four-year terms. This was a clear circumvention of the will of the people of New York City who have twice voted in favor of current term-limits. An issue so fundamental to our democracy should have been returned to the people for judgment.

18. a. I would propose that city pensions should be no more generous than the average of private industry pensions.

19. b. Yes, I do believe greater home rule should be granted to the City of New York. Two recent examples are the approval of raising the sales tax and extending mayoral control over education.

20. Urban public transportation should be a national priority and should be subsidized by the federal government.

21. I propose that each council committee have a direct role in the budget process and should examine, refine, and vote on the budgets for the agencies it oversees.

22. Tax revenue surpluses should be used in the best interest of the city – first to pay future debt obligations or left unspent and retained in reserves.

23. There is a widening disparity between taxes paid by New Yorkers and the value that is received in city services. New Yorkers are generally dissatisfied with the city’s quality of service. There should be no further tax increases and our government should be streamlined to be made smaller and more efficient.

24. I support the introduction of Green industry as well as scientific and engineering research. As urban centers such as New York City experience significant population growth, the need for sustainable environmental practices coupled with transportation and operational innovation will be paramount. New York City ought to be a leader in these regards and our economy must evolve accordingly.

25. I propose that parent-teacher advisory committees be afforded more influence and be given representation on the Department of Education’s leadership team. Other positive changes for New York City public schools include raising academic achievement standards, controlling class sizes, and improving facilities and learning resources.
27. I propose that additional and more comprehensive conflict of interest affidavits be required and that council members' financial activity be more closely monitored and audited.

Top Five Campaign Promises Being Made in 2009

1. Reform city government – use tax payer dollars wisely.
2. Bring new jobs to the district.
3. Enable small business growth.
4. Provide better access to healthcare in the district.
5. Improve education.
