

**2012 QUESTIONNAIRE FOR  
CANDIDATES FOR NEW YORK STATE LEGISLATURE**

Citizens Union would appreciate your response to the following questionnaire related to policy issues facing New York State and our interest in reforming state government. Responses to these questions will be one of several factors Citizens Union will use to evaluate candidates who are running for office in order to determine our "Preferred Candidates" for the September 13<sup>th</sup> Primary Election, and our "Endorsed Candidates" for the November 6<sup>th</sup> General Election.

If you seek our support, we would also need to schedule an interview with you as part of the evaluation process. We will not automatically schedule an interview with you if you return this questionnaire, as we prioritize competitive races and resources constrain us from evaluating all races. ### Election Reform

1. The redistricting process in New York is clearly in dire need of reform. The State Senate and State Assembly majorities have each taken gerrymandering to all new levels in the interests of protecting their incumbents. There is nothing more undemocratic than manipulating election results by drawing partisan, unrepresentative districts.
3. The current petition requirements do not represent much of a hurdle for prospective candidates. A determined group of individuals, working hard, can qualify any candidate for office. That being said, the arcane and byzantine process that follows at the Board of Elections and later in State Supreme Court is incredibly intimidating for the first-time candidate and offers nothing but challenges for anyone without Party support. We should keep the signature requirements but take away a political party's ability to bully non-endorsed candidates around.
5. This is worth supporting in principle, depending on the severity and nature of the crime committed.
6. Voting is a serious responsibility that should not be taken lightly. There are currently many avenues available to anyone looking to register to vote: the DMV, any Post Office, the Board of Elections website or the office of any elected official. Election Day registration won't increase voter participation – only public awareness and education will.
10. All elections in New York should be non-partisan. Why limit it to special elections?

### Campaign Finance Reform

12. I support public financing in general. However, we must find a way to enforce campaign finance rules more effectively to protect tax payer money. There have been far too many recent instances of flagrant abuse of the New York City public campaign finance system.
15. Limiting the ability of LLC's and Corporations to donate to State campaigns would only place an undue burden on small businesses looking to donate to political campaigns. The target of these limits, large corporations with outsized influence on legislative priorities, would remain largely unaffected by these restrictions because of their ability to create PACs and 501(c)4's. Until we can get rid of all corporate influence in elections this will remain a huge problem.
21. A donation made by a supporter is earmarked for a specific race, with purpose. Donations should not be carried over into a race for another office without written consent of the donor with

the donation being subject to campaign finance limits and regulations for the origin and new contest.

#### Judicial Reform

23. The practice of political parties “anointing” judges has to stop. Judges should be beholden to the citizens, and to no other parties. Our current system, with Judges serving elected terms and needing the support of the parties, is extremely vulnerable to abuse and undue influence.

#### Budget Reform

27. It is vitally important that our State budget reflect the finances of the vast and overreaching system of authorities that currently exists. If the tax payer is ultimately responsible for these quasi-governmental bodies, the tax payer should be aware of what those responsibilities entail.

32. A later start date for the fiscal year is the least of our State’s budget concerns. Our priority should be producing on-time, transparent, balanced budgets without using one-time windfalls to pay for operating expenses.

#### Additional Reform

34. The key to a true responsive and accountable government is a strong Freedom of Information Law. As it currently stands, government administrations have become incredibly adept at dodging, ignoring or quashing FOIA requests, and it has to stop. It isn’t government’s job to restrict public information – it is government’s job to make public and publish any information the citizens of our State require in order to make informed decisions.

35. As it currently stands in the State Assembly, the rank and file members do not hold any influence whatsoever, and barely have any control over their votes. Any member that doesn’t vote the Speaker’s way is punished, losing Committee assignments, having employees fired and being harassed with other administrative wizardry. Any action that weakens the “three-men-in-a-room” mentality would be positive at this point.
